

AHMED ELBARBARY

CYBERSECURITY TRAINEE

+201015965232

Kafrelsheikh, Egypt, 33735

albrbry04@gmail.com

ABOUT ME

I am a dedicated Information Technology graduate with a solid foundation in computer science and a strong passion for networking and cybersecurity. Equipped with hands-on lab experience in penetration testing, vulnerability assessment, and system administration across Linux and Windows Server environments. Proficient in Python and C#, I am eager to leverage my comprehensive academic background and self-driven security training to protect and enhance organizational infrastructure

EDUCATION

2022 - 2026

Kafrelsheikh University

Bachelor's Degree in Information Technology

Studied core computer science fundamentals including Object-Oriented Programming (OOP), Data Structures, Database Management, and Computer Vision. Developed strong problem-solving skills and software development proficiency

2023 - Present

Self-Study

Networking & Cybersecurity Training

Successfully completed comprehensive coursework including CS50, CompTIA Network+, CCNA, and CompTIA Security+, while continuously expanding technical knowledge and pursuing further advanced certifications in the field..

EXPERIENCE

2024 - 2026

Cybersecurity Home Labs

Penetration Testing Trainee

Configured and executed simulated attacks in a home lab environment. Conducted web application vulnerability assessments, wireless network security testing, and applied practical attacks such as Man-in-the-Middle (MITM) and brute-force encryption techniques.

2024 - 2026

Network Infrastructure Labs

Network Engineering Trainee

Designed and configured network topologies and wireless network environments in simulation labs. Gained hands-on experience with routing and switching protocols, IP addressing, and network troubleshooting based on CCNA and Network+ standards

2024 - 2026

IT Infrastructure Labs

System Administration Trainee

Configured and managed Windows Server and Linux operating systems. Implemented Active Directory for secure user management and access control, ensuring efficient system operations

SKILLS

- Network & Wireless Security
- Python & C# Programming
- Problem Solving
- Penetration Testing
- Linux & Windows Server
- Collaboration
- OOP & Data Structures
- Database Management
- Vulnerability Assessment
